20th August, 2021

3 & 11 Trans Woji Road

Port Harcourt,

Rivers State

Dear Sir,

QUOTATION FOR FUMIGATION SERVICES

Thank you for this opportunity, Nengarneys Universal Integrated Ltd. pest control services are one of the best in the country. We are glad to provide you our eco-friendly, safe and effective services of pest control in your location. We have prepared a proposal for your company. Please have a detailed look at it and let us know if you have any questions.

In addition to this, we offer integrated plans for the protection of homes, offices, restaurants, including Moisture Control Services and Insulation, to avoid this problem.

Our pest control services deal with the following:

Pest control

Earwigs, Gnats, Beetles, Ticks, Spiders, Fleas, Bedbugs, Ants, Cockroaches etc

Methods to Control

We will be using the following two methods to get rid of the pest problem:

Spray

We use cold fogging machines for indoors. We spray aerosol in the entire building walls and every nook and corner. This spray does not leave any stains on floors or walls. The chemicals we use are approved and recommended by the World Health office.

Baits feeding

This works by putting bait poison in the pest populated areas. It attracts the pests and as soon as they eat it, they get killed. They are designed to be injected or placed as dots in cracks and nooks. Syringes and bait guns are used to place them.

Treatment

Our inspector will conduct a thorough inspection of the area and make an assessment, on the basis of what the needs and requirements are. We will document all the details about the damages caused and the type of pest present at the place and the report will be presented to our technical staff.

Pricing for Base 1 and 2

Services	Price(in naira)	Frequency
